This is FiOS. This is BIG.

Verizon FiOS is the network of the future, delivering massive fiber-optic bandwidth straight to your door. The way you watch TV and use the Internet is about to be revolutionized.

THE BIG QUESTION: WHEN CAN I GET IT?

FiOS should be available for you to order within the next few months.

What do I do in the meantime?

- Go to www.verizon.com/countdown to learn more about FiOS, plus sign up to receive an e-mail or a call as soon as FiOS is available to you.
- Make sure you don't commit to a contract with another TV or Internet provider, so that a move to FiOS would involve paying an early termination fee. Remember, if you already enjoy Verizon High Speed Internet (DSL) service, you can upgrade to FiOS Internet at any time with no early termination fee.
- Watch your mail for more updates on the FiOS Countdown.
- Get ready to be blown away by the network of the future!
